

## Facilities

### FAIRBANKS DATA CENTER

#### Facility Overview

- 40 RU, full depth server cabinet (48" deep)
- Redundantly fed UPS protected power in each cabinet (2x 30A 208V 1Ø)
- 5KW peak load per cabinet
- N+1 Facility Level, Dual Conversion Uninterruptible Power Supply (UPS)
- N+1 HVAC (Hot aisle, cold aisle with heat containment and powered ventilation)
- Redundant substation feeds (aerial and underground)
- On site full load generation
- IBC Zone 3 Seismic Rating

#### Broadband Connectivity Options

Fiber optic meet-me points with:

- Alaska Communications (ASN 7782)
- AT&T (ASN 7782)
- GCI (ASN 8047)
- MTA (ASN 11090)
- Quintillion Networks

### ANCHORAGE DATA CENTER

#### Facility Overview

- 40 RU, full depth server cabinet (48" deep)
- Redundantly fed UPS protected power in each cabinet (2x 30A 208V 1Ø)
- 5KW peak load per cabinet
- 1+1 Facility Level, Dual Conversion Uninterruptible Power Supply (UPS)
- N+1 HVAC (Hot aisle, cold aisle, close coupled cooling)
- On site full load generation with 12-hour fuel supply
- IBC Zone 4 Seismic Rating

#### Broadband Connectivity Options

Fiber optic meet-me points with:

- Alaska Communications (ASN 7782)
- GCI (ASN 8047)
- MTA (ASN 11090)
